

Periodic Disclosure for the APG Private Equity Pool 2020-2021

July 2023

22. APG Private Equity Pool 2020-2021

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: APG Private Equity Pool 2020-2021

Legal entity identifier: 549300YJGS402TYNMT29

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Environmental and/or social characteristics	
Did this financial product have a sustainable investment objective?	
<input type="checkbox"/> Yes	<input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have a sustainable investment as its objective, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

This product promotes the following environmental and/or social characteristics¹:

Corporate Exclusion Policy

The Corporate Exclusion Policy applies to this product². This product does not invest in the following, based on the exclusion policy:

- Controversial and nuclear weapons;
- Tobacco.

Sustainable Development Investments³

The exposure to companies which contribute to the UN Sustainable Development Goals (SDGs) is measured for this product.

UNGC Principles

Investments in this product adhere to the UN Global Compact Principles (Human Rights, Labor, Environment and Anti-Bribery). APG expects General Partners to take into account the UN Global Compact Principles in legal documentation when making investments.

ESG Integration and Transparency

This product promotes ESG integration and reporting by external managers in their investment processes.

- ESG Integration
This product assesses ESG integration by managers through diligence and ongoing engagement with managers. Progress is tracked in our ESG Assessment tool and updated at each new underwriting⁴.

The ESG assessment scores are comprised of the following aspects:

	ESG Integration at GP & Portfolio Levels	Measuring impact, monitoring, & reporting	Best practice responsible investment standards	SDIs	Climate Change	Diversity
Max. Total Points	40	30	15	5	5	5
Good Practice Threshold	26.4	19.1	9.5	2.9	3.3	3.3

1) For more information about the Sovereign Exclusion Policy, Corporate Inclusion Policy and the Sustainable Development Investments approach, please see: <https://apg.nl/en/about-apg/asset-management/responsible-investment/>.

2) Only exclusions that were in place at the time of this product's inception are applicable; amendments to the Exclusion Policy cannot be effected retrospectively.

3) Please note that Sustainable Development Investments do not constitute sustainable investments as defined by SFDR.

4) Progress tracking via our internal ESG Assessment Tool is carried out for the portion of the portfolio that considers E&S characteristics; the "Other" portion of the portfolio is not scored.

- ESG Transparency
This product requires annual reporting by external managers on ESG integration.

Managers are also encouraged to include ESG Data Convergence Project data as part of their reporting. The ESG Data Convergence Project's objective is to streamline the private investment industry's historically fragmented approach to collecting and reporting ESG data to create a critical mass of meaningful, performance-based, comparable ESG data from private companies. This allows General Partners and portfolio companies to benchmark their current position and generate progress toward ESG improvements while enabling greater transparency and more comparable portfolio information for Limited Partners. Reporting categories include: greenhouse gas emissions, renewable energy consumption, board diversity, work-related injuries, net new hires, and employee engagement.

PRI Signatories

This product encourages external managers to become signatories to the UN Principles for Responsible Investment.

Identification of Severe ESG Incidents

This product uses an external service provider platform to identify severe ESG incidents. Also this product requires the external managers to report any controversies or material incidents relating to ESG. The external managers are also requested to provide information on any corrective action that has been taken in respect thereof, following up with regular updates until the incident has been resolved.

● How did the sustainability indicators perform?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Sustainability Indicator	Measurement	Performance
Exclusion Policy ⁵	The sustainability indicator to measure adherence to the Exclusion Policy is the absence of excluded products/ companies in this financial product.	In 2022, there were no instances of excluded assets invested, i.e., 0% of the portfolio ⁶ is exposed to assets on the exclusion list.
Sustainable Development Investments	The sustainability indicator to measure SDIs is the % of investments classified as SDIs versus the overall NAV of this product.	SDIs make up 11.6% of the portfolio, as measured by NAV ⁷ .

5) The Exclusion Policy for this product refers to the policy in place at inception; updates to the policy after inception cannot be guaranteed

6) As measured on a total asset allocation level i.e., both investments that promote E&S characteristics and "Other" investments

7) Ibid

UNGC Principles	The sustainability indicator to measure this E/S characteristic is the share of managers who agreed to take into account the UN Global Compact Principles when making fund investments.	100% of managers ⁸ have agreed to take into account the UN Global Compact Principles.
ESG Integration	The sustainability indicator to measure attainment of this E/S characteristic is whether the manager's score has achieved a Good Practice score or is improving towards a Good Practice score.	Out of 49 managers ⁹ , 20 managers have achieved a Good Practice score (Comprehensive or above), and 29 managers are improving their score towards this goal (current score of Limited).
ESG Transparency	The sustainability indicator to measure the attainment of this E/S characteristic is the percentage of managers reporting to us on ESG in a separate report, and the percentages of managers reporting to us on ESG Data Convergence Project metrics.	88% of managers ¹⁰ provide separate ESG reporting, and 57% ¹¹ are providing ESG Data Convergence Project metrics.
PRI Signatories	The sustainability indicator to measure this E/S characteristic is the share of managers who are signatories to the UN Principles for Responsible Investment.	76% of managers ¹² are signatories to the UN Principles for Responsible Investment.
Identification of Severe ESG Incidents	On a quarterly basis, this product reports the aggregated number of severe incidents to the clients.	Over 2022, there were 7 severe reputational incidents reported. Of these incidents, severity was subsequently downgraded for 2 of them; and 3 incidents were resolved. Of the severe incidents, 2 remain open and engagement will continue ¹³ .

8) As measured on the proportion of investments that promote E&S characteristics only
9) Ibid
10) Ibid
11) Ibid
12) Ibid
13) As assessed on the proportion of investments that promote E&S characteristics only

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

Principal Adverse Sustainability Indicator		Explanation	Observations over reporting period
PAI # 10	Violations of UN Global Compact principles and Organization for Economic Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Companies are monitored using a third party data provider for violations of the Global Compact and OECD Guidelines.	There were 0 companies in violation of the UN Global Compact and OECD Guidelines that APG was made aware of.
PAI # 11	Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Based on legal documentation (i.e. side letter provisions) external managers have agreed to take into account the UN Global Compact Principles in connection with each portfolio investment, subject to its fiduciary obligations to the partnership and its obligations under the express terms of the partnership agreement.	No investments were made over the period for which this obligation was waived. Furthermore, there have been 0 investments identified by GPs which are in violation of the UN Global Compact and OECD Guidelines
PAI # 14	Exposure to controversial weapons	Based on the Corporate Exclusion Policy, no investments in controversial weapons are made.	No new investments with exposure to controversial weapons were made i.e., 0% exposure

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 2022

What were the top investments of this financial product?

Primary and Secondary fund investments are made into blind pools of capital where exact sectoral and geographic composition of the final fund makeup can't be known until after the fund is fully deployed. Most managers invest across multiple geographies and sectors, subject to contractually agreed investor specific exclusions. Note that this closed-end product may still be in its investment phase. Top investments represent committed commitments made to date. The investment period of funds is typically 4-7 years.

#	Largest investments	Sector	% Commitments	Country
1	Permira VIII, L.P.	Various	4.9%	UK
2	Thoma Bravo Fund XV	Various	4.2%	USA
3	EQT IX – EUR	Various	3.6%	UK
4	Thoma Bravo Fund XIV	Various	3.3%	USA
5	Hellman & Friedman Capital Partners X	Various	3.2%	USA
6	Carlyle Partners VIII	Various	2.8%	USA
7	New Mountain Partners VI	Various	2.7%	USA
8	Silver Lake Partners VI	Various	2.7%	USA
9	Ares Corporate Opportunities Fund VI	Various	2.7%	USA
10	CVC Capital Partners VIII	Various	2.4%	UK
11	Clayton, Dubilier & Rice Fund XI	Various	2.4%	USA
12	Insight Partners XI	Various	2.0%	USA
13	Hg Saturn 3	Various	1.8%	UK
14	Insight Partners XII	Various	1.6%	USA
15	Undisclosed Co-Investment 1	Various	1.5%	USA

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

The asset allocation of this product is split between investments “aligned with E&S characteristics” (89.5%) and “other” (10.5%).

All investments aligned with E&S characteristics are held indirectly (i.e., via funds), except for Co-Investments (19.1%), for which the product holds a direct stake.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● ***In which economic sectors were the investments made?***

As this product is relatively new, and made up of fund investments that are blind pool in nature, it is not possible to disclose meaningful economic sector distributions at this time. This product will be in its investment period for several years, and sector allocation information will only be meaningful on an aggregate level from approximately year 4 of the product.

GICS Sector	% of Invested Capital
Energy	-
Materials	-
Industrials	-
Consumer Discretionary (Consumer Cyclical)	-
Consumer Staples (Consumer Defensive)	-
Health Care	-
Financials	-
Information Technology	-
Communication Services	-
Utilities	-
Real Estate	-

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

In this pool, 10.5% of committed capital falls under “#2 Other.” Other investments that would be included under “#2 Other” are Secondary Investments where E/S characteristics cannot be enforced on the undrawn commitment element of a Secondary Investment (4.6% in this product). We do seek to extend our ESG legal requirements to Secondary Investments, but may not be successful. In this case, all remaining “other” investments are managed by an external manager who does not explicitly consider E/S characteristics, nor claims to seek sustainable investments.

Furthermore, as derivatives are allowed as per the Approved Instrument List and can be used for efficient portfolio management and risk management, when present in the portfolio, they would fall under “#2 Other”. There is currently no material derivative exposure in the portfolio.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

- Manager due diligence (including ESG due diligence questionnaire completed at each underwriting)
- ESG score per internally developed model – the APG PE ESG Assessment Tool
- Manager engagement on various topics, including providing best practices and suggestions (e.g., encouragement to become UN PRI signatory, provision of ESG Data Convergence data, etc.)
- Periodic monitoring of investments for identification of severe ESG incidents (RepRisk)
