APG Emerging Markets Equity Pool

Pre-contractual disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: APG Emerging Markets Equity Pool

Legal entity identifier: M7LXPIWW7XBP5RMO417

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Benchmark

The customized benchmark that has been designated for the purpose of attaining the E/S characteristics promoted by this product is aligned with the Corporate Inclusion Policy and the Corporate Exclusion Policy. This means that the benchmark for this product excludes the following investments:

- Product based exclusions:
 - Controversial weapons
 - Tobacco production
- Energy and utility companies that we believe to be lagging on climate change. We refer to the Net Zero Investor Framework and identify laggards as companies that have not yet “committed to align” to a net zero pathway. In practice, these are companies that have been found not to have quantitative long-term emissions reduction target.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***What sustainability indicators are used to measure the attainment of each of the environmental or social characteristics promoted by this financial product?***

Corporate Exclusion Policy

The sustainability indicator to measure adherence to the Exclusion Policy is the absence of excluded products/ companies in this financial product.

Corporate Inclusion Policy

The sustainability indicator to measure adherence to the Corporate Inclusion Policy is the share of leaders in the product, based on the Corporate Inclusion Policy methodology.

Sustainable Development Investments

The sustainability indicator to measure the SDIs is the % of investments classified as SDIs versus the overall NAV of this product.

In addition to the above sustainability indicators, this product considers the following principal adverse impact indicators:

Sustainability indicators			
Indicator	Metric		Explanation
PAI # 1	GHG emissions	Scope 1 GHG emissions	Scope 1 and 2 emissions of the investments in this product are measured and monitored.
		Scope 2 GHG emissions	Scope 3 emissions of the investments in this product are not measured.

PAI # 2	Carbon footprint	Carbon footprint	Based on our carbon footprint target ⁴ , we measure how much carbon is emitted by companies this product invests in and how much of this is attributable to these companies.
PAI # 4	Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	A number of companies active in the fossil fuel sector will be sold based on the Corporate Inclusion Policy. These concern energy and utility companies that we believe to be lagging on climate change. These companies will be divested and subsequently excluded from the benchmark.

Social

123) Financial instruments may be excluded or restricted based on APG's exclusion implementation guidelines. It should be noted that permitted financial instruments may not be permissible if they are used as an element of an excluded or restricted strategy as and when referred to in those guidelines.

What is the asset allocation planned for this financial product?

The E/S characteristics apply to all investments in this product, with the exception of derivatives.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of the revenue from green activities of investee companies.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

#1 Aligned with E/S characteristics includes the investment of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● How does the use of derivatives attain the environmental or social characteristics promoted by the financial product?

Derivatives are only used for efficient portfolio management and risk management purposes in accordance with the Dutch Pension Act (Pensioenwet). Derivatives use shall comply with APG AM's counterparty policy, collateral policy, liquidity policy and market risk policy.

What investments are included under “#2 Other”, what is their purpose and are there any minimum environmental or social safeguards?

Investments included under “#2 Other” are derivatives.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable investment objective.

Is a specific index designated as a reference benchmark to determine whether this financial product is aligned with the environmental and/or social characteristics that it promotes

Yes

● ***How is the reference benchmark continuously aligned with each of the environmental or social characteristics promoted by the financial product?***

The benchmark is adjusted based on the Corporate Inclusion Policy and the Corporate Exclusion Policy, and energy and utilities companies which we believe to be lagging on climate change. These policies are monitored via ongoing processes. The benchmark adjustments are effectuated on a bi-annual basis as per June 1st and December 1st.

● ***How is the alignment of the investment strategy with the methodology of the index ensured on a continuous basis?***

First and second line risk keep oversight on portfolio investments. The companies which cannot be invested in are distributed with the Pool managers via an exclusion list and via information in the internally used information systems. The information is based on external vendors and/or proprietary analysis by a designated team: Global Responsible Investments & Governance (GRIG).

● ***How does the designated index differ from a relevant broad market index?***

The index excludes all constituents that are on the APG Exclusion List on the basis of product related exclusions, and energy and utility companies which we believe are lagging on climate change.

● ***Where can the methodology used for the calculation of the designated index be found?***

The benchmark is originally based on MSCI methodology, enhanced with the exclusion of specific companies based on the Corporate Inclusion Policy and the Corporate Exclusion Policy, and energy and utility companies which we believe are lagging on climate change.
